

Figure 10 is a line graph showing the time taken by the best v and best prop for each value of v. The x-axis is labeled 'Time (s)' and ranges from 0.000 to 0.175. The y-axis is unlabeled but represents a value from 0 to 1.0. The legend identifies eight series: 'best v 0' (blue), 'best prop 0' (orange), 'best v 1' (green), 'best prop 1' (red), 'best v 2' (purple), 'best prop 2' (brown), 'best v 3' (pink), and 'best prop 3' (grey). All series show a linear increase in time as the value of v increases. The lines for 'best v' are slightly above the lines for 'best prop'.
