

The graph displays eight curves representing the best v and best propagation for different values of v. The curves are very close, showing a decreasing trend. The legend identifies the curves as follows:

- best v 0 (blue line)
- best propagation 0 (orange line)
- best v 1 (green line)
- best propagation 1 (red line)
- best v 2 (purple line)
- best propagation 2 (brown line)
- best v 3 (pink line)
- best propagation 3 (grey line)
